

EVA MOON SOUND PLOT

We can provide our own PA but are happy to use house sound where available

We prefer 2 monitors placed as shown. We prefer house mix in the monitors.

Our standard setup uses 9 channels:

- 3 vocal mics
- 2 mics on amps
- 1 direct ins
- 2 drum mics

2 of 5 musicians sing:

- Eva (keyboard) sings lead -- mix her louder.
- Mike (bass) sings backup.
- Add light to medium reverb on vocals.

Eva prefers to use her own vocal mic (Audix OM5)
